SAFETY FEATURES GUIDE

RELAXED FIT®

MEMORY FOAM

CARBON NANO TOE

Exclusively for industry professionals, Skechers Work's innovative lightweight Non-Metallic Carbon Nano Toe footwear is designed with a durable, ultra-lightweight toe, torque flex construction and high-grade materials for superior strength, protection and comfort. Meets ASTM F2413, standards for impact and compression.

CARBON FIBER SAFETY TOE

Exclusively for industry professionals, Skechers Work's innovative lightweight Non-Metallic Carbon Fiber Safety Toe footwear is designed with a durable, ultra-lightweight toe, torque flex construction and high-grade materials for superior strength, protection and comfort. Meets ASTM F2413, standards for impact and compression.

STEEL SAFETY TOE

Skechers Work Steel Safety Toe footwear has been independently tested and meets the ASTM F2413, standards for impact and compression.

COMPOSITE SAFETY TOE

Exclusively for industry professionals, Skechers Work's innovative lightweight Non-Metallic Composite Safety Toe footwear is designed with a durable, ultra-lightweight toe, torque flex construction and high-grade materials for superior strength protection and comfort. Meets ASTM F2413, standards for impact and compression.

LIGHTWEIGHT SAFETY TOE

Exclusively for industry professionals, Skechers Work's innovative lightweight Alloy Safety Toe Series footwear is designed with a durable, ultra-lightweight toe, torque flex construction and high-grade materials for superior strength protection and comfort. Meets ASTM F2413, standards.

PUNCTURE-RESISTANT

The puncture-resistant insole reduces the possibility of sharp objects (nails, glass or metal) penetrating through the outsole and causing injury to the foot. Designed and tested to withstand a puncture force of 270 lbs, not to crack after 1.5 million flexes, and to show no signs of corrosion when exposed to 5% salt solution for 24 hours. Standard utilized ASTM F2413.

WATERPROOF

Skechers waterproof footwear meets waterproofing standards and is designed to keep feet dry for at least eight hours in water or wet conditions. Tested with the SATRA TM77 method, utilizing membrane- and seam-sealed constructions to withstand harsh elements and inclement weather.

SLIP-RESISTANT

Skechers Work's slip-resistant shoes have outsoles and tread patterns designed to increase traction.

ELECTRICAL HAZARD

Skechers Work Electrical Hazard (EH) footwear meets ASTM F2413 EH requirements. Footwear is constructed to provide a secondary level of protection on surfaces that are substantially insulated against accidental contact with electrically energized objects, and is tested to resist a disruptive discharge to the ground under the potential 18 kV 60Hz AC for one minute with no current flow in excess of one milliampere under dry conditions.

ELECTROSTATIC DISSIPATIVE

Electrostatic dissipative (ESD) footwear is designed to reduce the accumulation of excess static electricity by conducting body charge to ground. The footwear shall have a lower limit of electrical resistance of $10^5 \Omega$ (1 megohm) and have an upper limit of electrical resistance of $10^8 \Omega$ (100 megohms) (SD100). Standard utilized: ASTM F2413.

METATARSAL GUARD

Designed to provide a secondary source of protection to prevent or reduce injuries to metatarsal areas of the foot from compression and the impact of dropped or fallen objects. Tested to ASTM F2413 M175 standards.

SKECHERS®

THE COMFORT TECHNOLOGY COMPANY®

Skechers is a globally recognized, multi-billion-dollar brand that specializes in designing and developing lifestyle and performance products renowned for their style, innovation, quality, and comfort. In addition to its extensive footwear collection, the company offers a growing range of apparel and accessories, providing comprehensive head-to-toe solutions for men, women, and children.

Headquartered in Manhattan Beach, California, it was founded in 1992 and is the third largest footwear brand in the United States.

Skechers Singapore Pte Ltd is a joint venture with Skechers U.S.A., Inc. (NYSE:SKX), a Fortune 500® company based in Southern California. Skechers designs, develops and markets a diverse range of lifestyle and performance footwear, apparel and accessories for men, women and children.

Collections from The Comfort Technology Company are available in 180 countries and territories through department and specialty stores, and direct to consumers through digital stores and approximately 5,000 Company- and third-party-owned physical retail stores. The Company manages its international business through a network of wholly-owned subsidiaries, joint venture partners, and distributors.

In Singapore, Skechers is available in 19 concept stores, 1 city outlet, 5 outlet stores, 5 sales stores and 3 shop-in-shops within the departmental stores in Singapore. For more information, please visit www.SKECHERS.com.sg and follow us on Facebook ([Facebook.com/SKECHERS](https://www.facebook.com/SKECHERS)) and Instagram (@SKECHERSSG).

WORKSHOES TECHNOLOGIES

- **Slip-resistant outsoles** with specially designed treads for enhanced grip
- **Oil and water-resistant materials** for added protection
- **Shock-absorbing cushioning** to reduce fatigue and stress on feet, legs, and back during long shifts

CORPORATE DISCOUNTS

- Take advantage of our exclusive bulk purchase discount, designed to enhance your company's budget efficiency.

SAFETY AND COMFORT WORK ENVIRONMENT

- **Promote a safer work environment:** Help prevent slip-and-fall accidents and keep your staff healthy
